## Community Health Centers Economic Impact

Florida's Community Health Centers (CHCs) have provided high-quality, comprehensive primary care services in the medically underserved communities throughout the state for more than 50 years. Florida's 54 CHCs have a presence in all 67 counties serving patients in more than 800 locations, including dozens of mobile units and school-based sites statewide.

The Florida Association of Community Health Centers (FACHC) is designated by the U.S. Health Resources and Services Administration (HRSA) as Florida's Primary Care Association (PCA). The primary mission of FACHC is to improve access to quality health services by bringing together agencies, legislators and key persons able to affect health care services. Learn more about FACHC and Florida's Community Health Centers at our website: [www.fachc.org](http://www.fachc.org) or at the U.S. Bureau of Primary Care (BPHC) website <https://bphc.hrsa.gov>
